HUMAN INSIGHT. MARKET CLARITY.

Research for the decisions ahead.

Meaningful impact.

Mirror Metrics Research Ltd is a social and market research organization in Bangladesh. Our focus connects people, communities, and markets through thoughtful study design, fieldwork, and analysis.

OUR RESEARCH FOCUS

01

Social & development research

Baseline, midline and endline studies; program and impact evaluation; community, livelihood and service-access research.

02

Market & consumer intelligence

Consumer behavior, brand health, product and concept testing, customer experience, market sizing and retail research.

03

Quantitative & qualitative fieldwork

Structured digital surveys, in-depth interviews, focus groups, key informant interviews, field supervision and quality review.

START WITH YOUR QUESTION

inquiry@mirrormetrics.com.bd | Dhaka, Bangladesh

RIGOROUS BY DESIGN. HUMAN AT EVERY STEP.

From a clear question to a useful direction.

01 / DESIGN

Connect the research question to the decision. Define the population, scope, sample, instruments, practical constraints, and participant safeguards.

02 / FIELDWORK

Pilot the tools, prepare interviewer guidance, and plan collection around language, context, access, and the agreed field schedule.

03 / QUALITY

Agree validation and supervision procedures in advance. Document review, cleaning, and any changes made during collection.

04 / ANALYSIS

Answer the research questions clearly. Distinguish findings from interpretation, report limitations, and explain implications for decisions.

POTENTIAL PROJECT DELIVERABLES

- Research framework and sampling plan
- Survey instruments or qualitative discussion guides
- Documented dataset, codebook, and quality review notes
- Analytical report, executive summary, and findings presentation

The final scope, coverage, methods, schedule, and outputs are agreed in the project proposal. This overview does not assert client endorsements, certifications, staff credentials, or completed project results.
